“Clever and Quick on Our Feet in Federation”

October, 2008

## President's Message:

Hello Ladies,

I am sitting here writing my presidents message to you as I hear the news saying that we are in for some santa ana winds today. This begins the time of the year for the bad fires. I hope all of you have cut back your brush and have a family disaster plan ready if needed.

October 1, 2008 I changed our meeting place to “The Fish Merchant” because of the heat wave. I enjoyed the food and of course the air conditioning. Our speaker Judy Bamberg ,RN,BSN from Kaiser Hospital spoke on breast cancer and prevention.

I decided to have a president's project fundraiser. I wanted to make pink breast cancer bracelets. I took the project to the board meeting where they accepted it. The calling committee took it to our membership for a vote. My project was passed and is in the development stage. As soon as I get a sample bracelet together, I would like to have help assembling them.

In the BWC budget we have \$150.00 to donate to the battered women's center in El Cajon for their Thanksgiving dinner. The Battered women's center has a budget of \$350.00 a month to feed twenty eight people. If you would like to bring in food or household items to help them it would be greatly appreciated.

In closing, at our next meeting in November we should have a new United States president elected. Please get out and vote.

Hugs to all of you,  
Linda
